## Tuesday, November 29 Winspear Centre

This November, Vocal Alchemy will mark its 20<sup>th</sup> anniversary with a spectacular gala concert bringing more than 200 performers to the stage of the Winspear Centre in Edmonton.

This milestone event will feature the world premiere of *Song of the Future* by composer John Estacio, to a text by Alice Major, Edmonton's inaugural Poet Laureate. This will be paired with a performance of Dan Forrest's cinematic masterwork *Requiem for the Living*, a breathtaking work featuring full orchestra, acclaimed guests Chronos Vocal Ensemble, special guest soloists, and accompanying film.

This evening will provide an immersive experience to inspire an audience of 1000 people. We have received significant financial support from the Edmonton Community Foundation, and now we are reaching out to the business community for partners to help us bring this magnificent event to the stage.
